OBJECTIVE

I am passionate about helping eCommerce businesses build stronger operations through proactive support, organized systems, and exceptional customer experience. My objective is to become a dependable partner who takes ownership of daily operations, keeps projects moving forward, and ensures nothing falls through the cracks. By combining attention to detail, critical thinking, and a solutions-focused mindset, I strive to create smoother workflows that allow founders to spend less time managing day-to-day tasks and more time growing their business.

MISSION

My mission is to become the operational backbone of a growing eCommerce business by creating efficient systems, improving processes, and anticipating challenges before they impact the business. I believe that successful companies are built on consistent execution, clear communication, and well-structured operations. Rather than simply completing assigned tasks, I take pride in identifying opportunities for improvement, solving problems proactively, and continuously learning new tools, technologies, and best practices that help businesses operate more efficiently and scale with confidence.

GOAL

My long-term goal is to grow into a trusted Executive Assistant and eCommerce Operations Manager who works directly alongside founders to support business growth through operational excellence. I aspire to lead projects, optimize workflows, implement automation, and build scalable systems that improve efficiency across every area of the business. As technology and eCommerce continue to evolve, I am committed to continuously expanding my knowledge in operations management, AI, automation, customer experience, and business strategy so I can contribute meaningful value, adapt to changing business needs, and become a key driver of long-term success for the companies I support.

Professional Work Experience

Executive Assistant/ E-Commerce Operations Specialist

July 2019 - March 2026

IPTS Health and Wellness Products Trading

FREELANCE

Owned end-to-end ecommerce operations for a health and wellness brand scaling across Shopify, Shopee, Lazada, and TikTok Shop, managing 100+ active product listings to keep catalogs, pricing, and inventory accurate across every channel. Tasked with tightening a fast-growing operation, I built and ran the complete order management cycle, monitoring 20–40 orders weekly, coordinating fulfillment, tracking shipments, and resolving customer issues to protect a seamless buying experience. I spotted recurring workflow gaps and designed organized Google Sheets tracking systems for inventory, reporting, and daily operations — skills directly transferable to Amazon Seller Central and similar marketplace backends. I also drove brand growth through content calendars, competitor research, and social strategy using Meta Business Suite and Canva, scaling the brand to 9,900+ Facebook followers. Result: streamlined workflows, higher listing accuracy, and systems that freed leadership to focus on strategic growth instead of daily operational firefighting.

Customer Service Representative

September 2022 – October 2025

United Airlines Account | Concentrix

FULL-TIME

Delivered consistent, high-quality support in a high-volume, fast-paced operations environment, balancing speed, accuracy, and professionalism while assisting customers with reservations, schedule changes, and service disruptions — the same real-time problem-solving Shopify and Amazon sellers need when order volume spikes. Tasked with resolving complex, time-sensitive issues without compromising service quality, I investigated concerns thoroughly, coordinated across internal departments to close gaps quickly, and documented every interaction to maintain compliance and accuracy — a discipline directly applicable to marketplace order tracking, returns, and dispute resolution. Staying composed under pressure, I communicated clearly and de-escalated confidently, consistently meeting performance metrics even during peak disruption periods. Result: reliable, high-volume service delivery at scale, faster issue resolution, and a proven track record of protecting customer experience and operational SLAs under high transaction volume — core strengths for ecommerce operations and customer experience roles at scale.

Talent Acquisition Specialist

May 2021 – August 2022

Recruitment Solutions Department

FULL-TIME

Provided day-to-day operational support for a growing eCommerce business by assisting with product listing management, inventory updates, order processing, and customer support across multiple sales channels. Managed routine operational tasks such as updating product information, monitoring order status, responding to customer inquiries, processing cancellations and refunds, and maintaining accurate business records to ensure smooth daily operations. Supported backend administrative functions by organizing data, updating operational trackers, and collaborating with the business owner to prioritize tasks and resolve operational issues efficiently. Through consistent execution, attention to detail, and proactive communication, I helped maintain organized workflows and deliver a positive customer experience while allowing the business owner to focus on growth and strategic initiatives.

Shopify Operations Assistant

Wang Li

FREELANCE

March 2023 – October 2023

Supported the day-to-day operations of a growing Shopify store by managing product listings, collections, pricing updates, and inventory records to ensure an organized and accurate online catalog. Processed customer orders from purchase through fulfillment, monitored shipment progress, and coordinated with suppliers and logistics partners to resolve delivery concerns and maintain smooth order processing. Responded promptly to customer inquiries regarding orders, shipping, cancellations, exchanges, and refunds while maintaining a high standard of customer service across multiple communication channels. Maintained operational trackers, sales reports, and inventory records using Google Sheets to improve workflow visibility and reduce operational errors. By consistently monitoring store performance, identifying listing issues, and supporting backend administrative tasks, I contributed to a more efficient ecommerce operation that allowed business owners to focus on business growth and customer satisfaction.

Amazon Operations Support

Victor Lim

FREELANCE

April 2024 – November 2024

Provided operational support for Amazon Seller Central by assisting with product listing management, inventory monitoring, order processing, and marketplace administration to ensure efficient daily operations. Managed customer orders from purchase through fulfillment, monitored shipment status, coordinated with fulfillment providers, and resolved customer concerns related to returns, refunds, and order issues while maintaining excellent customer service standards. Maintained accurate inventory records, product information, and operational reports using Google Sheets and Microsoft Excel to support business decision-making and marketplace compliance. Monitored account performance, customer feedback, and operational metrics to identify potential issues before they affected store performance. Through organized documentation, attention to detail, and consistent communication with business owners and cross-functional teams, I helped maintain smooth marketplace operations while supporting business growth and operational efficiency.

eCommerce Operations Assistant

Arnel Delima

FULL-TIME

January 2021 – March 2022

Provided comprehensive operational support across Shopee Seller Center, Lazada Seller Center, and TikTok Shop by managing product listings, updating pricing, promotions, and inventory levels while maintaining accurate product catalogs across multiple ecommerce platforms. Processed daily customer orders, monitored fulfillment progress, coordinated shipments, and resolved order-related concerns to ensure a seamless buying experience from purchase through delivery. Managed customer inquiries regarding products, returns, exchanges, cancellations, and refunds while maintaining prompt and professional communication. Maintained sales reports, inventory trackers, and operational documentation using Google Sheets and Microsoft Excel to improve inventory accuracy and support informed business decisions. Worked closely with business owners to prioritize daily operational tasks, streamline marketplace workflows, identify process improvements, and maintain organized backend operations that supported sustainable business growth across multiple online selling platforms.

Education

College Undergraduate
Bachelor of Arts in English Language Studies
San Mateo Municipal College

2021 - 2023

Pursued a Bachelor of Arts in English Language Studies with a strong emphasis on communication, critical thinking, research, and language proficiency. Throughout my academic journey, I developed the ability to analyze complex information, produce professional documentation, and communicate ideas clearly across diverse audiences. Collaborative projects and academic research strengthened my organizational, time management, and problem-solving abilities while fostering adaptability in dynamic environments. These experiences laid the foundation for my professional growth in operations, where clear communication, process documentation, collaboration, and customer-focused solutions are essential to achieving operational excellence and sustainable business success.
